RG-121-1/RG-121-2 Specifications

Voltage	24 Volts
Rated Capacity C ₁	2 AH
Maximum Weight	6.4 LB / 2.9 KG
Not Rated for Engine Starting	

Features

RG-121-2 Battery features an Internal DC Heater

Specifications are subject to change without notice

Standby and Emergency Power

Concorde's Emergency and Standby batteries are valve regulated sealed recombinant gas (RG®), constructed with advanced lead acid and absorbed glass mat (AGM) technology.

Designed to float directly on the DC buss, there is no need for a dedicated charger. The batteries are self regulating and can accept high inrush current for fast recovery.

- Maintenance free
- Constructed with non removable vent valves – no addition of electrolyte or water required
- Aerobatic: Non spillable at any altitude or attitude
- Factory tested to assure airworthiness
- Shipped fully charged and ready to install
- RG® Series is classified as unrestricted for land, sea or air transportation
- Available through a professional network of worldwide distributors
