

# RG-385

## 24V Main Aircraft Battery

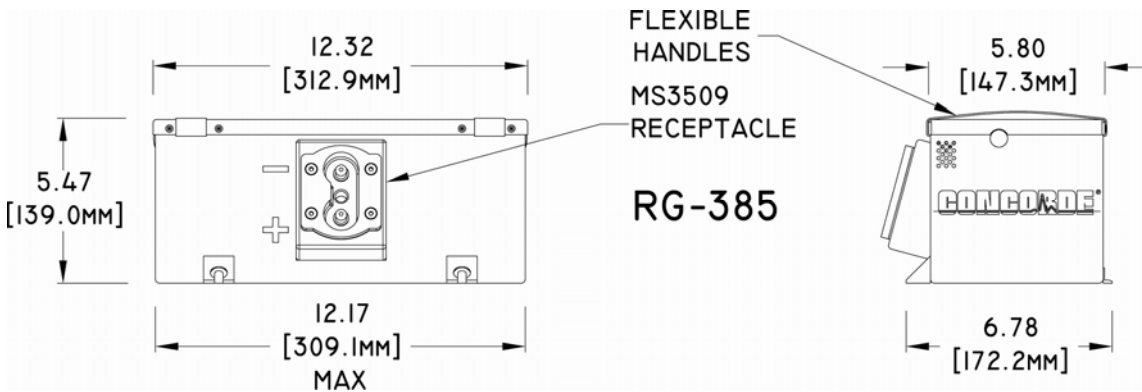

### Approved for Installation on the F-5

Recombinant Gas - The RG<sup>®</sup> Series are low resistance, valve regulated lead acid (VRLA) batteries. U.S. and Armed Forces worldwide have found reliability and superior performance with Concorde Valve Regulated Sealed Lead Acid Batteries (VRSLA / VRLA / SLAB).

- Reliable essential power in the event of a generator failure
- Maintenance free – no addition of electrolyte or water ever required
- Direct replacement for maintenance intensive Nickel Cadmium batteries
- Factory tested to assure airworthiness
- The original AGM (Absorbent Glass Mat) battery designed for the US Military
- Improved aircraft readiness - shipped fully charged and ready to install
- RG<sup>®</sup> Series batteries ship Hazmat Exempt
